Number of Years	2

5 [Generate Report](#) [Reset](#)

Select your **Report Options**. Click **“Generate Report (5).”**

In this example, it appears that every month more students are contacting the discipline system, suggesting that additional preventative, teaching, and reward strategies are needed.

Average Number of Students per Month

While it’s tempting to evaluate school progress by removing the impact of “frequent flyer students,” **doing so obscures the impact these students have on your school-wide climate.** All instructional planning for Tier 1 behavior should be based on the monthly referral rate, which provides the average number of referrals per day per month.
